Residence Hron

Installation of LUMiCHARGER

## Case Study

### EV stations - Residence Hron, Zvolen

Residence Hron is a new housing project in Zvolen with 256 apartments, offering residents not only modern standards of living, but also convenient parking, while not forgetting the new trends in transport and thus supporting electromobility. Thanks to the cooperation with Seak, 2 charging stations (LUMiCHARGER S2SB) with 2x 22 kW power and load balancing function have been installed in the Hron residence for the residents.

Chargers in Residence Hron
